

- Ajay R. Sankar -

Sales Engineer

Techno-Commercial Specialist | Lead Generation Expert | PRINCE2 Champion

Dubai, UAE • 050-521840882 • ajay.raj.sankar@gmail.com • [linkedin.com/ajayrs](https://www.linkedin.com/in/ajayrs)

Engineering professional with 4+ years of experience in manufacturing and construction industries, including technical sales and project execution. Skilled in client engagement, process improvement, and managing stakeholder relationships with major entities like DEWA and EMAAR. Holds an MSc in Engineering Management and PRINCE2 certification, with a strong focus on delivering technical solutions that drive sales growth and customer satisfaction.

PROFESSIONAL EXPERIENCE

Sales Engineer - GRP Products & Waterproofing Solutions • Florence Fiber Glass LLC • Ajman 08/2023 - Present

Responsible for driving sales of GRP-based waterproofing and composite solutions across infrastructure and construction sectors. Managed key accounts, supported technical trials, implemented pricing strategies, and delivered customer-focused solutions to meet project demands. Contributed to business growth by leveraging CRM tools, market intelligence, and cross-functional coordination.

- ▶ Managed key accounts and developed leads within government and private construction sectors
- ▶ Promoted GRP-based waterproofing and adhesive solutions aligned with project and client needs
- ▶ Supported techno-commercial analysis by evaluating project requirements and cost implications
- ▶ Improved profit margins by 12% through effective pricing and strategic customer targeting.
- ▶ Built strong relationships with key entities including DEWA, EMAAR, TAQA, and municipal authorities.
- ▶ Delivered AED 3M+ in annual sales revenue, achieving a 28% year-on-year growth in assigned territory.
- ▶ Resolved customer issues within 48 hours through close collaboration with technical and QA teams.

Project Engineer – GRP Manufacturing • Fibretech Manufacturing LLC • Ajman 12/2020 - 11/2021

Handled end-to-end project execution and supported pre-sales technical activities for GRP-based construction and infrastructure products. Worked closely with production and sales teams to optimize product design, ensure compliance, and drive customer satisfaction. Contributed to sales enablement through technical proposals and client support.

- ▶ Supported technical sales, contributing to a 20% increase in project win rate
- ▶ Prepared comprehensive technical bid as per client checklist for public and private sector tenders
- ▶ Acted as a key liaison between clients and production team adhering to delivery timelines
- ▶ Enforced HSE protocols in handling resins and chemicals, enhancing compliance and reducing incidents
- ▶ Delivered cost-optimized GRP solutions through design refinements.

Application Engineer Intern • Fibretech Manufacturing LLC • Ajman

04/2020 - 08/2020

Provided technical pre-sales support and customized product solutions for GRP-based infrastructure products. Played a key role in interpreting client requirements, preparing submittals, and supporting the sales team in securing project wins. Engaged in continuous improvement of product performance and manufacturability.

- ▶ Translated customer specifications into concept GRP product designs using Solidworks and Autocad
- ▶ Prepared over 40 technical submittals and compliance packages for tendering processes
- ▶ Delivered product presentations and technical clarifications during pre-bid and kick-off meetings
- ▶ Built strong technical rapport with buyers and consultants, supporting long-term sales relationships

Technical Diagnosing Intern • Nissan • Dubai

07/2019 – 09/2019

Supported the diagnostic and servicing operations for electrical and mechanical systems in Nissan vehicles. Gained practical exposure to technical reporting, fault analysis, and client service documentation in a high-volume service environment.

- ▶ Conducted diagnostic evaluations and fault identification for wiring harnesses and electronic system
- ▶ Assisted in the preparation of technical service reports for internal use and client communication
- ▶ Replaced electrical components based on fault codes and diagnostic outputs
- ▶ Documented key learnings on technical workflows and customer handling processes

EDUCATION

MSc. Engineering Management B.Tech • Northumbria University • United Kingdom

01/2022 – 06/2023

Mechanical and Automation Engineering • Amity University • United Arab Emirates

09/2016 – 12/2020

Higher Secondary School • Sharjah Indian School • United Arab Emirates

09/2014 – 05/2016
