Dear Hiring Manager,

I am writing to express my interest in the Internship Program (Ref. No. JD-129) at Alpin Limited. As a graduate in Electronics & Communication Engineering with practical experience in documentation, compliance, and stakeholder coordination within the oil & gas and heavy equipment industries, I am eager to apply my technical foundation and develop expertise in commissioning and sustainable building systems.

In my roles as Sales Executive and Admin Assistant, I gained hands-on experience preparing compliance checklists, maintaining accurate technical and commercial records, and coordinating with cross-functional stakeholders under strict deadlines. These responsibilities sharpened my ability to interpret requirements, manage data systematically, and ensure quality outcomes—all of which align closely with Alpin's commissioning processes.

What excites me most about Alpin is its commitment to sustainability and innovation in the built environment. I am particularly motivated by the opportunity to contribute to projects that not only uphold the highest technical standards but also advance climate-conscious practices. With my adaptability, strong communication skills, and eagerness to learn, I am confident I can support your team while gaining valuable experience in commissioning and building systems.

I would welcome the opportunity to discuss how my background and passion for sustainable engineering can contribute to Alpin's mission. Thank you for considering my application, and I look forward to the possibility of contributing to your team.

Sincerely,

Binsha
