Dear Hiring Manager,

I am writing to express my interest in the Contractual Services Leadership Program (CSLP) at GE Power. With a strong background in EPC project management, procurement, and commercial operations, I am excited about the opportunity to contribute to GE's goals while further developing my leadership and technical skills through this esteemed program.

In my current role as a Projects & Contracts Associate at the National Central Cooling Company (Tabreed), I have managed complex EPC District Cooling Plant projects across the GCC, from the tendering stage to contract establishment. My responsibilities include global sourcing, risk management, claims strategy development, and contract administration. I have successfully handled all contractual activities, liaised with multiple stakeholders, and ensured smooth project executions. These experiences have honed my skills in project management, negotiation, and problem-solving, all of which will be highly beneficial for the role.

A few highlights of my qualifications include:

- Spearheading tendering activities on a global level on projects across GCC and India
- Establishing various framework agreements with major OEMs for reducing the risk of inflation
- Managing project risk and opportunity identification and implementing action plans
- Handling contractual activities and liaising with Legal for contractual and legal queries.

These experiences have provided me with a comprehensive understanding of project controls, procurement planning, and stakeholder management, making me a well-rounded candidate for the CSLP. I am particularly drawn to this program because of its commitment to developing leadership skills through diverse rotational assignments, including field/construction and scheduling, which align perfectly with my career aspirations.

Thank you for considering my application. I look forward to the opportunity to discuss how my background, skills, and ambitions align with the goals of the Contractual Service Leadership Program at GE Power. I am excited about the possibility of contributing to your team and am available at your earliest convenience for an interview.

Sincerely,

Mohamed Ziyad
