Dear Hiring Manager,

I am writing to express my interest in the Contract Management Specialist role at Emirates Airlines. With over five years of experience in managing EPC and infrastructure contracts across the GCC, I have developed a strong foundation in contract analysis, supplier performance management, and techno-commercial evaluation—skills directly aligned with the responsibilities outlined for this position.

In my current role as Senior Projects & Contracts Associate at Tabreed, I lead the end-to-end contract lifecycle for complex engineering projects, negotiating multimillion-dollar agreements, establishing framework contracts with OEMs, and optimizing supplier performance. I have implemented rating metrics and supplier engagement strategies that improved operational efficiency, reduced costs by 15%, and ensured timely delivery of critical projects. My experience in digital record-keeping and workflow optimization ensures that contractual obligations and product support terms are accurately documented and easily accessible for stakeholders.

I am confident that my expertise in contract administration, supplier management, and techno-commercial analysis can contribute to enhancing Emirates' procurement processes, driving value recovery, and supporting strategic decision-making across engineering business units.

I would welcome the opportunity to discuss how my skills and experience can contribute to Emirates Airlines' continued success and excellence in contract management. Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,

Mohamed Ziyad
