Dear Hiring Manager,

I am writing to express my interest in the Project Manager role at GE Vernova. With a solid background in EPC project management, procurement, and contract administration, I am excited about the opportunity to contribute to GE's turnkey projects for electrical and power utilities. I believe my experience in managing complex projects and leading cross-functional teams will allow me to deliver value to both GE and its clients.

In my current role as a Projects & Contracts Associate at National Central Cooling Company (Tabreed), I have successfully managed EPC District Cooling Plant projects across the GCC, overseeing everything from planning and procurement to site installation and commissioning. My responsibilities include managing multimillion-dollar projects, ensuring on-time delivery, and meeting financial and commercial parameters. I have extensive experience in coordinating with multiple stakeholders, from suppliers to customers, and driving project execution in alignment with contractual terms.

Some highlights of my qualifications include:

- Lead turnkey EPC projects across the GCC, handling planning, procurement, and commissioning.
- Established FWA with major OEMs to optimize procurement strategies and reduce project costs.
- Negotiated change orders and managed project risks to ensure profitability and customer satisfaction.
- Reduced procurement lead times by 50% through the implementation of LTRA with key suppliers.

These experiences have strengthened my project management, leadership, and problem-solving skills, all of which will be crucial in delivering GE's turnkey projects. I am particularly drawn to this role because of its focus on overseeing comprehensive project execution, including factory integration, testing, site installation, and commissioning — areas in which I have a proven track record.

Thank you for considering my application.

Sincerely,

Mohamed Ziyad
