Dear Hiring Manager,

I would like to express my interest in the Regional Buyer position at Siemens Energy. With over four years of experience in procurement, contract management, and global sourcing within the utilities sector, I am confident in my ability to contribute effectively to your team and deliver reliable sourcing services.

In my current role as a Projects & Contracts Associate at National Central Cooling Company (Tabreed), I dealt primarily in the tendering process of EPC District Cooling Plant projects across the GCC region. My responsibilities covered tendering administration, contract establishment, developing long term framework agreements (LTRA FWA) with major mechanical and electrical OEM's. My efforts have yielded 15% negotiated savings and reduced procurement turnaround time by 50% during award and execution.

Key achievements in my current role include:

- **Purchase Order Management:** Efficiently managed purchase orders and tracked materials to ensure timely and cost-effective delivery, aligning with project demands.
- **Supplier Relationship Management:** Developed and maintained strategic relationships with suppliers and stakeholders, driving improvements in cost and efficiency.
- **Cost Optimization:** Administered CAPEX projects, achieving significant savings and improving cash flow by securing extended payment terms.

My prior experience as a Commercial Tendering Engineer and Sourcing Intern has honed my skills in preparing competitive quotations, managing logistics, and optimizing procurement processes. These roles have equipped me with a solid foundation in handling complex procurement tasks, negotiating contracts, and delivering high-quality service to internal and external stakeholders.

I hope my track record meets your expectations for the role. Thank you for considering my application.

Sincerely,

Mohamed Ziyad
